RHODODENDRONS

Dexter's Rhododendrons are the most showy of all Seed-raised rhododendrons with flowers of from 3 to 5 inches and over with clusters up to 10 inches or more. Pink, Lavender, White and Red and some unusual colors like salmon pink, orchid and maroon are among this stock. When selecting your plants, ascertain the type of plant you wish, because each plant has a character of its own; one will grow tall and thin, others grow dwarf with great spread and thick foliage. A mixture is desirable for mass planting.

HARDY PERENNIALS

These desirable Hardy Plants give the Garden Picture color. From the early Spring with little tufts of blue and yellow of the Alyssum and dwarf Phloxes the showing continues with bolder masses of breath-taking beauty. Columbines, Bleedinghearts, Doronicums and others are followed up by the dazzling splendor of the newer Oriental Poppies, the Liliums and Hemerocalis, not overlooking the Delphiniums with their stately spikes and infinite tints of lavenders, rose and blues. Anemones, Asters, Chrysanthemums and Aconites are just a few more with which to build the undreamed of vistas with their irresistible appeal and splendor.

The stock offered are all field grown plants, strong, sturdy, healthy plants that will make a fine showing right after planting.

Prices are: all plants 25c each, \$2.20 per 10, \$18.00 per 100, except as noted.
